# Subject Index

Abstracts
  American Neurological Association, 163
  Child Neurology Society, 186
Acetylcholine. *See* Choline
Actin filaments in human skin fibroblasts are similar in normal persons and patients with Huntington's disease (Geary et al), 554
Adenosine triphosphatase
  increased sodium plus potassium adenosine triphosphatase activity in erythrocyte membranes in Huntington's disease (Butterfield et al), 60
Adie syndrome
  transaqueous diffusion of acetycholine to denervated iris sphincter muscle, mechanism for tonic pupil syndrome (Adie syndrome) (Wirtschafter et al), HYPOTHESIS, 1
American Neurological Association
  abstracts, 163
  program, 160
Amnesia. *See* Cognitive dysfunction
Amyloid
  pharmacological studies of the pupils in familial amyloid polyneuropathy (Okajima et al), 80
Amyotrophic lateral sclerosis sera are not cytotoxic to neuroblastoma cells in tissue culture (Lehrich and Couture), LETTER, 384
Aneurysms
  long-term prognosis in untreated cerebral aneurysms, late morbidity and mortality (Winn et al), 418
  unusual presentation of traumatic extracranial internal carotid artery aneurysm (Bradbury and Lambert), 88
Angiotensin
  angiotensin converting enzyme in kainic acid–injected striata (Singh and McGeer), 85
  angiotensin converting enzyme in parkinsonian brain (Rinne et al), LETTER, 483
Anoxia
  cerebral carbohydrate metabolism during hypoglycemia and anoxia in newborn rats (Vannucci and Vannucci), 73
Antibodies
  cerebrospinal fluid findings in asymptomatic patients with reactive serum fluorescent treponemal antibody absorption tests (Traviesa et al), 524
  occurrence of candida-specific oligoclonal IgG antibodies in CSF with candida meningoencephalitis (Iwashita et al), NOTE, 579
Anticonvulsants
  downbeat nystagmus due to anticonvulsant toxicity (Alpert), 471
  greater reliability of tear versus saliva anticonvulsant levels (Tondi et al), NOTE, 154
  serum phenytoin after ethosuximide (Dawson et al), 583
Antigens
  HLA antigens in Landry-Guillain-Barré syndrome and chronic relapsing polyneuritis (Stewart et al), 285
  segregation of HLA type in multiple sclerosis families (Karis), LETTER, 156; reply (Eldridge et al), LETTER, 157
Antioligodendrocyte serum
  characterization of antioligodendrocyte serum (Traugott et al), 431
Aortography. *See* Diagnostic tests
Apraxia
  vertical oculomotor apraxia and memory loss (Mills and Swanson), 149
Ataxia
  Friedreich's ataxia, normal pyruvate dehydrogenase complex activity in platelets (Stumpf and Parks), 366
Automated systems to evaluate touch-pressure, vibration, and thermal cutaneous sensation in man (Dyck et al), 502
Autosomal dominant neurological disorders (Brady and Rosenberg), SUMMARY, 548
Axons. *See* Nerves

Bacterial infections. *See* Infectious diseases
Bell's palsy and secondary syphilis, CSF spirochetes detected by immunofluorescence (Davis and Sperry), 378
Blood flow. *See* Hemodynamics
Blood vessels. *See also* Aneurysms
  carotid bruits, their significance (Rollinson and Wiggins), LETTER, 158
  cerebral hypoperfusion in sudden infant death syndrome?, brainstem gliosis and vasculature (Takashima et al), 257
  multiple small cavernous angiomas of brain with increased intracranial pressure (Tindall et al), 376
  venous angioma of the optic chiasm (Fermaglich et al), 470
Blood volume
  measurement of regional cerebral blood volume by emission tomography (Grubb et al), 322
Books
  books received and brief reviews, 96, 586
  *Scientific Approaches to Clinical Neurology, Vols I and II*, edited by Goldensohn and Appel, 586
Brain. *See also* Cognitive function; Cognitive dysfunction; *and specific disorder*
  angiotensin converting enzyme in kainic acid–injected striata (Singh and McGeer), 85
  angiotensin converting enzyme in parkinsonian brain (Rinne et al), LETTER, 483
  bihemispheric decreases of regional cerebral blood flow in dementia, correlation with age-matched normal controls (Lavy et al), 445
  brain and cognitive sciences (LeDoux et al), CONFERENCE REPORT, 391
  cerebral carbohydrate metabolism during hypoglycemia and anoxia in newborn rats (Vannucci and Vannucci), 73
  cerebral hemodynamics and metabolism in pseudotumor cerebri (Raichle et al), 104
  changes in brain weights during the span of human life, relation of brain weights to body heights and body weights (Dekaban and Sadowsky), 345
  chronic subdural hematoma simulating transient ischemic attacks (Robin et al), LETTER, 154
  destruction of internal sagittal stratum and normal smooth pursuit (Sharpe and Deck), 473
  encephalitis. *See* Encephalitis

July issue, pp 1–96; August issue, pp 97–198; September issue, pp 199–292; October issue, pp 293–390; November issue, pp 391–484; December issue, pp 485–588.

Brain *(continued)*
experimental allergic encephalomyelitis in cobra venom factor–treated and C4-deficient guinea pigs (Morariu and Dalmasso), 427
hemiballismus, detection of focal hemorrhage in subthalamic nucleus by CT scan (Melamed et al), LETTER, 582
hemorrhage. *See* Hemorrhage
identification of speech lateralization by intracarotid injection of methohexital (Willmore et al), 86
interpretation of intelligence profiles in brain-damaged left-handers (Lomas and McGlone), LETTER, 91; reply (Satz and Todd), LETTER, 91
intracranial pressure. *See* Intracranial pressure
measurement of regional cerebral blood volume by emission tomography (Grubb et al), 322
metabolism. *See* Metabolism
nontreatment of some severe strokes (Baer), POINT OF VIEW, 381
progressive dialysis encephalopathy (Lederman and Henry), CLINICAL REVIEW, 199
role of judges in life/death decisions for the neurologically impaired (Beresford), COMMENTARY, 463
skew deviation in pseudotumor cerebri (Merikangas), NOTE, 583
sparing of Onufrowicz nucleus in sacral anterior horn lesions (Iwata and Hirano), 245
tumors. *See* Tumors
Brainstem
brainstem auditory evoked responses in JNAD (Chiappa et al), LETTER, 585; reply (Dorfman), LETTER, 585
cerebral hypoperfusion in sudden infant death syndrome?, brainstem gliosis and vasculature (Takashima et al), 257
organization of brainstem ocular motor subnuclei (Zee), NOTE, 384
Bromocriptine
brain dopamine receptor stimulation and relief of parkinsonism, relationship between bromocriptine and levodopa (Rinne and Marttila), 263
Bruits
carotid bruits, their significance (Rollinson and Wiggins), LETTER, 158
α-Bungarotoxin
acetylcholine receptor in myasthenia gravis, increased affinity for α-bungarotoxin (Elias and Appel), 250

Cancer. *See* Tumors
Candida
occurrence of candida-specific oligoclonal IgG antibodies in CSF with candida meningoencephalitis (Iwashita et al), NOTE, 579
Carbohydrates
cerebral carbohydrate metabolism during hypoglycemia and anoxia in newborn rats (Vannucci and Vannucci), 73
Carboxylic acids
pathophysiology of myotonia produced by aromatic carboxylic acids (Furman and Barchi), 357
Carcinoma. *See* Tumors
Carnitine
carnitine deficiency, acute postpartum crisis (Angelini et al), 558
muscle carnitine palmityltransferase deficiency, case with enzyme deficiency in cultured fibroblasts (DiDonato et al), 465
tissue carnitine in Reye syndrome (Willner et al), 468
Cell typing
characterization of antioligodendrocyte serum (Traugott et al), 431
Central nervous system. *See also specific disorder*
computed tomography in late-infantile metachromatic leukodystrophy (Buonanno et al), 43
endogenous pain control mechanisms, review and hypothesis (Basbaum and Fields), CURRENT REVIEW, 451
experimental scrapie in mice, ultrastructural observations (Baringer and Prusiner), 205
"glial bundles" in spinal cord late after paralytic anterior poliomyelitis (Iwata and Hirano), 562
saccadic system plasticity in humans (Abel et al), 313
Cerebrospinal fluid
Bell's palsy and secondary syphilis, CSF spirochetes detected by immunofluorescence (Davis and Sperry), 378
cerebrospinal fluid findings in asymptomatic patients with reactive serum fluorescent treponemal antibody absorption tests (Traviesa et al), 524
cerebrospinal fluid in visna, a slow viral disease of sheep (Griffin et al), 212
electron microscopic studies of cerebrospinal fluid sediment in demyelinating disease (Herndon and Kasckow), 515
occurrence of candida-specific oligoclonal IgG antibodies in CSF with candida meningoencephalitis (Iwashita et al), NOTE, 579
proteolytic enzyme activity of blood leukocytes and cerebrospinal fluid in multiple sclerosis (Cuzner et al), 337
Cerebrovascular accidents
nontreatment of some severe strokes (Baer), POINT OF VIEW, 381
Cervical rib
peripheral nerve conduction in patients with cervical rib and band (Gilliatt et al), 124
Chiasm, optic. *See* Eye
Child Neurology Society
abstracts, 186
program, 184
Choline
acetylcholine receptor in myasthenia gravis, increased affinity for α-bungarotoxin (Elias and Appel), 250
acetylcholine release in diaphragm of rats with chronic experimental autoimmune myasthenia gravis (Kelly et al), 67
choline levels in plasma of myasthenia gravis patients and normal individuals (Stein et al), NOTE, 290
deanol acetamidobenzoate inhibits the blood-brain barrier transport of choline (Millington et al), 302
transaqueous diffusion of acetylcholine to denervated iris sphincter muscle, mechanism for tonic pupil syndrome (Adie syndrome) (Wirtschafter et al), HYPOTHESIS, 1
CK-BB isoenzyme detected by radioimmunoassay (Moore and Norris), LETTER, 576; reply (Bell et al), LETTER, 576
Clonazepam
successful treatment of primary reading epilepsy with clonazepam (Login and Kolakovich), LETTER, 155
Clonus. *See* Contractions
Cluster headache
chronic paroxysmal hemicrania and cluster (Jotkowitz), LETTER, 389
Cognitive dysfunction
bihemispheric decreases of regional cerebral blood flow

in dementia, correlation with age-matched normal controls (Lavy et al), 445
juvenile amaurotic idiocy (neuronal ceroid lipofuscinosis) and lymphocyte fingerprint profiles (Baumann and Markesbery), 531
psychiatric disturbances in neurological patients, detection, recognition, and hospital course (DePaulo and Folstein), 225
vertical oculomotor apraxia and memory loss (Mills and Swanson), 149
Cognitive function
brain and cognitive sciences (LeDoux et al), CONFERENCE REPORT, 391
interpretation of intelligence profiles in brain-damaged left-handers (Lomas and McGlone), LETTER, 91; reply (Satz and Todd), LETTER, 91
pseudodeterioration of intelligence in children (Barkley and Murphy), LETTER, 388
Commentary
role of judges in life/death decisions for the neurologically impaired (Beresford), 463
Complement
experimental allergic encephalomyelitis in cobra venom factor–treated and C4-deficient guinea pigs (Morariu and Dalmasso), 427
Computed tomography. *See* Diagnostic tests
Concanavalin A
Duchenne dystrophy, focal alterations in distribution of concanavalin A binding sites at the muscle cell surface (Bonilla et al), 117
Conference report
brain and cognitive sciences (LeDoux et al), 391
Contractions
"paradoxical clonus," rhythmic contractions evoked in passively shortened muscle (LeWitt), NOTE, 481
Corticosteroids
improvement in Gilles de la Tourette syndrome after corticosteroid therapy (Kondo and Kabasawa), NOTE, 387
CT scanning. *See* Diagnostic tests
Cutaneous sensation. *See* Skin

Deanol acetamidobenzoate inhibits the blood-brain barrier transport of choline (Millington et al), 302
Deficiency diseases. *See also* Metabolism
carnitine deficiency, acute postpartum crisis (Angelini et al), 558
experimental allergic encephalomyelitis in cobra venom factor–treated and C4-deficient guinea pigs (Morariu and Dalmasso), 427
inheritance of enzyme defect in a new hexosaminidase deficiency disease (Johnson and Chutorian), 399
muscle carnitine palmityltransferase deficiency, case with enzyme deficiency in cultured fibroblasts (DiDonato et al), 465
Dementia. *See* Cognitive dysfunction
Demyelinating diseases
electron microscopic studies of cerebrospinal fluid sediment in demyelinating disease (Herndon and Kasckow), 515
HLA antigens in Landry-Guillain-Barré syndrome and chronic relapsing polyneuritis (Stewart et al), 285
myelinated nerves in familial dysautonomia (Pearson), LETTER, 156
Diabetes
bilateral involvement of lateral cutaneous nerve of the calf in a diabetic (Finelli and DiBenedetto), NOTE, 480
Diagnostic tests. *See also* Laboratory tests; Ultrastructural studies
brainstem auditory evoked responses in JNAD (Chiappa et al), LETTER, 585; reply (Dorfman), LETTER, 585
clinical and electroencephalographic correlates of multiple independent spike foci pattern in children (Blume), 541
computed tomography in late-infantile metachromatic leukodystrophy (Buonanno et al), 43
hemiballismus, detection of focal hemorrhage in subthalamic nucleus by CT scan (Melamed et al), LETTER, 582
identification of speech lateralization by intracarotid injection of methohexital (Willmore et al), 86
measurement of regional cerebral blood volume by emission tomography (Grubb et al), 322
paresis after aortography (Herskowitz), LETTER, 158
paroxysmal beta activity in the pediatric electroencephalogram (Nealis and Duffy), 112
peripheral nerve conduction in patients with cervical rib and band (Gilliatt et al), 124
site of lesion in Fisher syndrome (Czarnecki and Hachinski), LETTER, 158; reply (Okajima), LETTER, 159
Dialysis
carotid bruits, their significance (Rollinson and Wiggins), LETTER, 158
progressive dialysis encephalopathy (Lederman and Henry), CLINICAL REVIEW, 199
Dogs
multiple sclerosis and dogs, a closer look (Haile et al), LETTER, 577; reply (Cook et al), LETTER, 578
multiple sclerosis and house dogs (Karis), LETTER, 291; reply (Cook et al), LETTER, 291
Dopamine
brain dopamine receptor stimulation and relief of parkinsonism, relationship between bromocriptine and levodopa (Rinne and Marttila), 263
L-dopa on-off effect in Parkinson disease, treatment by transient drug withdrawal and dopamine receptor resensitization (Direnfeld et al), 573
Drugs. *See* Pharmacological therapy *and specific agent*
Duchenne dystrophy. *See* Dystrophy
Dysautonomia
myelinated nerves in familial dysautonomia (Pearson), LETTER, 156
Dyskinesia
deanol acetamidobenzoate inhibits the blood-brain barrier transport of choline (Millington et al), 302
Dysmyelination
computed tomography in late-infantile metachromatic leukodystrophy (Buonanno et al), 43
Dystonia
paired helical filaments in neurovisceral lipidosis (juvenile dystonic lipidosis) (Horoupian and Yang), 404
progressive dystonia with marked diurnal fluctuation (Ouvrier), 412
Dystrophy
alteration in erythrocyte membrane structure in Duchenne muscular dystrophy (Wakayama et al), 253
brainstem auditory evoked responses in JNAD (Chiappa et al), LETTER, 585; reply (Dorfman), LETTER, 585
computed tomography in late-infantile metachromatic leukodystrophy (Buonanno et al), 43

Dystrophy *(continued)*
Duchenne dystrophy, focal alterations in distribution of concanavalin A binding sites at the muscle cell surface (Bonilla et al), 117
neuroaxonal dystrophy and osteopetrosis (Fitch and Carpenter), LETTER, 91

Editorial
physician's responsibility for epileptic drivers (Masland), 485
Ehlers-Danlos syndrome
systemic lupus erythematosus, myasthenia gravis, and Ehlers-Danlos syndrome (Branch and Swift), 374
Electrical activity. *See* Seizures
Electroencephalogram. *See* Diagnostic tests
Electron microscopy. *See* Ultrastructural studies
Encephalitis
meningoencephalitis following enucleation for cryptococcal endophthalmitis (Birkmann and Bennett), 476
occurrence of candida-specific oligoclonal IgG antibodies in CSF with candida meningoencephalitis (Iwashita et al), NOTE, 579
Encephalomyelitis
experimental allergic encephalomyelitis in cobra venom factor–treated and C4-deficient guinea pigs (Morariu and Dalmasso), 427
Encephalopathy
progressive dialysis encephalopathy (Lederman and Henry), CLINICAL REVIEW, 199
Enzymes
angiotensin converting enzyme in kainic acid–injected striata (Singh and McGeer), 85
angiotensin converting enzyme in parkinsonian brain (Rinne et al), LETTER, 483
CK-BB isoenzyme detected by radioimmunoassay (Moore and Norris), LETTER, 576; reply (Bell et al), LETTER, 576
increased sodium plus potassium adenosine triphosphatase activity in erythrocyte membranes in Huntington's disease (Butterfield et al), 60
inheritance of enzyme defect in a new hexosaminidase deficiency disease (Johnson and Chutorian), 399
muscle carnitine palmityltransferase deficiency, case with enzyme deficiency in cultured fibroblasts (DiDonato et al), 465
proteolytic enzyme activity of blood leukocytes and cerebrospinal fluid in multiple sclerosis (Cuzner et al), 337

Gilles de la Tourette syndrome, further studies and thoughts (Singer et al), 21
improvement in Gilles de la Tourette syndrome after corticosteroid therapy (Kondo and Kabasawa), NOTE, 387
tics and Tourette's, a continuum of symptoms? (Golden), 145
Toxicity
amyotrophic lateral sclerosis sera are not cytotoxic to neuroblastoma cells in tissue culture (Lehrich and Couture), LETTER, 384
clinical studies of intrathecal autologous lymphocyte infusions in patients with malignant glioma, toxicity study (Neuwelt et al), 307
downbeat nystagmus due to anticonvulsant toxicity (Alpert), 471
neurotoxicity of intrathecal gentamicin, case report and experimental study (Watanabe et al), 564
serum phenytoin after ethosuximide (Dawson et al), LETTER, 583
Transient ischemic attacks
chronic subdural hematoma simulating transient ischemic attacks (Robin et al), LETTER, 154
unusual presentation of traumatic extracranial internal carotid artery aneurysm (Bradbury and Lambert), 88
Transplantation
rapid improvement in nerve conduction velocity following renal transplantation (Oh et al), 369
Transverse myelopathy. *See* Myelopathy
Trauma
meningoencephalitis following enucleation for cryptococcal endophthalmitis (Birkmann and Bennett), 476
recurrent seizures induced by cortical iron injection, model of posttraumatic epilepsy (Willmore et al), 329
unusual presentation of traumatic extracranial internal carotid artery aneurysm (Bradbury and Lambert), 88
Treponemal antibody. *See* Antibodies
Tumors
amyotrophic lateral sclerosis sera are not cytotoxic to neuroblastoma cells in tissue culture (Lehrich and Couture), LETTER, 384
clinical studies of intrathecal autologous lymphocyte infusions in patients with malignant glioma, toxicity study (Neuwelt et al), 307
fatal long-term sequela following radiation "cure" for ependymoma (Bachman and Ostrow), 319
mixed intracranial sarcomas, rare forms and a new association with previous radiation therapy (Averback), 229
multiple small cavernous angiomas of the brain with increased intracranial pressure (Tindall et al), 376
relationship of lymphocyte invasion and survival of brain tumor patients (Brooks et al), 219
venous angioma of the optic chiasm (Fermaglich et al), 470
weakness in malignancy, evidence for remote effect of tumor on distal axons (Barron and Heffner), 268

Ultrastructural studies
alteration in erythrocyte membrane structure in Duchenne muscular dystrophy (Wakayama et al), 253
Duchenne dystrophy, focal alterations in distribution of concanavalin A binding sites at the muscle cell surface (Bonilla et al), 117
electron microscopic studies of cerebrospinal fluid sediment in demyelinating disease (Herndon and Kasckow), 515
experimental scrapie in mice, ultrastructural observations (Baringer and Prusiner), 205
juvenile amaurotic idiocy (neuronal ceroid lipofuscinosis) and lymphocyte fingerprint profiles (Baumann and Markesbery), 531
Morquio syndrome, neuropathology and biochemistry (Koto et al), 26
paired helical filaments in neurovisceral lipidosis (juvenile dystonic lipidosis) (Horoupian and Yang), 404
ultrastructure and biochemistry of sympathetic ganglia in idiopathic orthostatic hypotension (Petito and Black), 6

Visna
cerebrospinal fluid in visna, a slow virus disease of sheep (Griffin et al), 212

Weight
changes in brain weights during the span of human life, relation of brain weights to body heights and body weights (Dekaban and Sadowsky), 345
Werdnig-Hoffman disease
"glial bundles" in spinal cord late after paralytic anterior poliomyelitis (Iwata and Hirano), 562
